31st Annual WHO Convention – June 17 & 18, 2016

The Washington Homeschool Organization (WHO) is a statewide, non-profit membership organization. Its mission is to serve the diverse interests of home-based education in Washington State.

For several years WOTFA has sponsored a booth at this convention.

Our members volunteer to manage the booth, greet enquiring minds, explain who we are and what activities that we are involved in to promote the old time music and related arts. We display handouts, membership applications, and different sized fiddles, mandolins etc. which we show the kids how to hold and play open strings. We also have a jam, and some kids return to this convention with their instruments to play along with us. This is generally a lot of fun for us, as well as the kids.

Please sign up for a period when you can join us at the booth. Contact the District 8 Chair person, Barbara, bmacleap@comast.net. Vendors are admitted free of charge.
